

HLTA National Assessment Partnership

Awarding body for the
National HLTA Status

HLTA National
Partnership for the
Assessment Route
Only

How does the
Level 5 link to
HLTA?

Standards

These are a set of professional benchmarks defining the values, knowledge and skills required for those working at HLTA level. In order to be awarded the National HLTA Status, candidates are required to meet all 33 HLTA standards

Development of the KSBs were based on previous apprenticeships, outcomes from Foundation degrees and HLTA standards

Many of the standards can be seen reflected in the KSBs which make up the requirements of the Level Five Apprenticeship

How do I apply for HLTA status?

Those completing the L5 STA apprenticeship have the opportunity to be assessed for HLTA status via an assessment only route – they will not be required to complete an HLTA preparation for assessment course.

Applications should be made to NPAO at npao@hnap.uk (the National Provider of Assessment Only route), who is managing applications and assessments on behalf of HNAP.

Applications will be accepted from those who have completed the apprenticeship and are at the point of going through to the final assessment stage (Gateway) –a minimum of a pass will need to be achieved. Successful applicants will be provided with details of how to register for the Assessment Only route.

What happens next?

Once registered, applicants will be provided with comprehensive guidance materials including how to signpost the evidence from their final portfolio and gateway feedback reports to the HLTA standards. Documents explaining the standards will be provided as well as a timescale for submitting the paperwork and being assessed.

All applicants will be allocated an experienced HLTA assessor who will carry out a series of professional discussions between the applicant, their mentor and a representative from SLT (nominated by the applicant). School support is essential.

Essential information

All applicants must provide evidence of maths and English qualifications at level 2/ GCSE C/4 or equivalent. This can be a copy of the original certificates or a pass slip from the exam board. These need to be seen and verified by the HT or a member of SLT on behalf of NPAO.

Applications must be made within three months of completing the L5 STA

Specific HLTA standards require applicants to demonstrate they have advanced learning when working with individuals, small groups and whole classes. Examples of advancing learning when taking whole classes must be without the presence of a qualified teacher.

The cost of the assessment is £350.
